FOR PRESIDENT,
BENJAMIN HARRISON
OF INDIANA.

FOR VICE-PRESIDENT
LEVI P. MORTON,
OF NEW YORK.

THE NATION'S BIRTHDAY.

The return of the anniversary day of the nation's birth is always received with a satisfaction and rejoicing which no other occasion evokes. The scenes and incidents are closely interwoven with that event and recalled with a vividness almost real. We seem to hear the stentorian tones of patriots proclaiming the most sublime principles promulgated since the world was created. We can easily imagine the feelings of those noble men whom oppression could not reduce, whose spirits were not to be crushed by a long series of infamous impositions, whose souls would not be bowed at the dictation of Wrong, personated by Crown; and, as they banded together for common good, and all that was dear to soul and body, we can appreciate, but not describe, the inspiration pervading their entire system. We seem to hear the chime of that darling old bell as it pealed forth peace and liberty. That chime, the echoes of which will reverberate in our ears, inspiring us with a love for liberty and our common country, until we shall return to that dust from whence we came. The succeeding events force themselves upon us with such rapidity that we are led to contemplate the present instinctively without charging our memory. As we pause a moment to glance back we recall nothing that should be effaced. There have been things which brought us no credit, were not flattering to our pride, could have been better done and dispensed with, but the picture as a whole is not marred. The bad spots act as beacons of light to show off with greater effulgence the deeds which have served to bring our people closer together, make us better men, better citizens, secure us peace and prosperity, and caused the nation to be the wonder of the civilized world. Now to be the wonder of the civilized world. Now to be an American is a far greater glory than what is conveyed by the words "I am a Roman!" We know that every true heart beats time to the sentiment that all that has been gained in the past shall be preserved for the future, and that in the future our aim shall be to make our every step a stride onward in the great paths marked out for us, until at last this will seem to be a perfect heaven on earth.

The dawn of the glorious Fourth of July brings the fact vividly to the minds of all true American citizens that the nation is fighting in the present Presidential campaign the same nation and for the same principles that our forefathers fought for in 1776. Every voter this Fall should consider this well, and cast their ballot for the rights of American citizens and against British dictation. England is well aware that the election of Cleveland means one more step toward bringing America under her control. Votes for Harrison and Morton in November, and the perpetuity of American liberty, and once more let America give England to understand that she is able to run her own affairs as did George Washington, Thomas Jefferson and all the other patriots of '76, when they declared their independence, and went through hardships and battle to place the United States in the independent and honored position it now stands with all the world.

The Teacher's Convention.

SAN FRANCISCO, July 2d.—The programme of the Teachers' Convention has been completed and is now in the hands of the printers. General sessions of the Association will be held daily, the morning sessions to open 9 A. M., and conclude at 12:30 P. M., and the evening sessions to begin at 6 P. M., and conclude at 10:30 P. M. At each session only one theme will be presented.

Governor Davis appointed George Russell Commissioner of Elko county, vice J. R. Bradley, resigned. He has also appointed Isaac P. Weaver, of Pittsburg, a Notary Public, to reside in Lander county.

A. G. Dawley, a Democrat, was appointed County Clerk of Elko county, vice Wiseman, who "resigned" six weeks ago, since which time the Clerk's office has been closed and all business suspended.

"HASTINGS' CORNET BAND."—The above-named band made its first appearance at the closing exercises of Mt. St. Mary's Academy Monday evening, and discoursed some very fine brass music considering that some of its members have never blown a horn until a couple of weeks ago. This new band is under the leadership of Walter Hastings, and is composed of fifteen members, as follows: W. Hastings, Eb cornet, leader; Leone MaLott, Eb cornet; Will Ferguson, solo Bb cornet; Walter Morton, 2d Bb cornet; Al Linn, baritone; Mr. Smith, basso; Mr. Conn, 1st tenor; F. L. The "Bandit King" is a piece made up from the exploits of Jessie James, and in it Jas. H. Wallace will appear in his great role of "Joe Howard." The company have a beautiful car in which they carry their horses and special scenery for the grand scenic effects that are produced during the production of this piece. A WORD OF WARNING.—The several insurance agents in town have received circulars, which contain suggestions which should be heeded by our people. The circular reads: Each recurring Fourth of July anniversary with its bombs, rockets and fire crackers, burns a big hole in the money bags of the insurance companies; with just a little care beforehand much of this waste can be avoided. Of course Young America must be indulged in this annual racket, but if roofs, streets and yards are wet down thoroughly, and all rubbish cleaned up beforehand, and the department hose and village engine put in shape for practical use, many fires, even conflagrations, may be averted.

Mrs. D. P. Bowers.—On next Friday and Saturday evenings this talented actress, supported by E. J. Buckley and her own powerful company, will appear in McKissick's Opera House. On Friday evening she will play "Queen Elizabeth," on Saturday evening "Lady Audley's Secret," and on the Saturday matinee the double bill of "Old Love Letters" and "Lucretia Borgia" will be produced. DEATH OF MARSHAL KELLY.

Taken off Suddenly by Heart Disease Monday.

The Enterprise of Tuesday morning contains the following particulars of the death of U. S. Marshal Kelly:

Our people were yesterday startled and shocked at hearing of the sudden death of U. S. Marshal Thomas E. Kelly of heart disease. He was at work in his office in the Odd Fellows' building, when he complained of feeling suddenly faint and ill. He spoke to his nephew and assistant, James Moore, saying that he would go home. His nephew offered to go with him, but he said he did not think there was anything very serious the matter with him, and he would be able to get home without assistance. He started home, but when he had gone part way became so much fainter that he stopped a passing vehicle and had himself driven home.

After reaching his residence on North A street Mr. Kelly complained of acute pains in the region of the heart. Dr. Webster was sent for, and on his arrival administered some medicine. After the departure of the physician Mr. Kelly seemed to grow worse. He appeared to feel that he was about to die and spoke of leaving his children, saying he did not know what they would do. In a few minutes he gave a few gasps and was dead.

Deceased was a native of St. Stephens, New Brunswick, and was 49 years of age. He came to the Pacific Coast in 1857, and to the Comstock in 1862. He was twice elected Sheriff of Storey county and was twice Chief of Police of Virginia City. He was appointed U. S. Marshal by President Cleveland, and had been a very active and energetic officer up to almost the moment of his death.

Although he held several offices while a resident of the Comstock, he did much hard work as a miner in the lower levels. At various times he made a good deal of money in mining stocks, but when out of luck and out of office was never above picking up the miner's pail and going to work in the lower levels. He helped to organize the Gold Hill Miners' Union in 1893.

Mrs. Kelly, the wife of the deceased, died about six weeks ago of the same disease. Five orphan children, three boys and two girls, ranging from 5 to 13 years of age, are left fatherless and motherless.

One of the little girls, a child about 10 years of age, is said to have had a dream a night or two since of her father being taken suddenly ill and dying at his office. It is said he had an attack of heart disease of considerable severity only about four or five weeks ago.

Deceased was a member of Nevada Lodge No. 7, I. O. O. F., was a charter member of the Virginia Miners' Union and was also a member of the Select Knights Branch of the A. O. U. W., from which his children will receive \$4,000.

Thomas E. Kelly was a man highly esteemed by all who knew him, and in the offices he held in the city, and county was as square a man as ever lived and also as fair a man. As Sheriff and Chief of Police he often had unpleasant duties to perform, but no man was ever heard to complain of him. He was always an active participant in public affairs, and was active in preparing for the coming celebration of the Fourth of July.

MRS. D. P. BOWERS.

The Eminent Tragedienne to Appear in "Queen Elizabeth."

Manager Piper has completed all arrangements for the appearance of the distinguished actress at the Opera House next Friday evening, July 5th. "Queen Elizabeth" is selected as the play to be presented on the opening night. During the present engagement of Mrs. Bowers at the Baldwin Theater in San Francisco the Call dramatic critic wrote as follows:

The personation by Mrs. D. P. Bowers of "Queen Elizabeth," with its splendid breadth and fullness of characterization, has convinced a few of our stage ladies who thought they had gained the penitential of the Thespian temple and were in possession of all the mysteries of the Muse that they have scarcely passed the propylaeum. Such finished and massive acting as Mrs. Bowers has favored us with will have a wholesome effect upon that young ambition and zeal, which, without proper equipment, intellectually as well as technically, seeks to usurp leading places on the stage.

The eminent tragedienne will give two evening entertainments and a matinee, with a change of programme on each appearance. She is accompanied by first-class support and even brings with her Robert Eberly, king of stage managers.

The box-sheet for Mrs. Bowers' engagement is now open at Nasby's and reserved seats can be secured for one night or for the entire season.

A BEAUTIFUL SEAL SKIN CLOAK—is a becoming garment to a lady. If she has an elastic step, an air of grace and modesty, and the glow of health on her cheek, she will always command admiration. Without these no woman can appear to advantage. With sickly countenance, painful gait, and listless air she is an object of pity. How many American women daily drag out a wretched existence, ignorant of the blessing of perfect health! TUSCARORA'S FUTURE.

A Water and Electric Light Company—A 20-Stamp Mill for Queen and Commonwealth—Concentrating Plant for North Belle Isle and Queen.

The Tuscarora Times-Review of last Saturday contains the following:

Tuscarora is now on the high road to prosperity and is bound to become one of the most permanent mining camps in the State of Nevada. The developments during the past year in the 400-foot level of the North Belle Isle, as well as those in the lowest levels of contiguous mines, from the deepest point yet reached and extending upwards to the surface, have attracted the attention of capitalists from abroad who have invested largely in shares in the leading mines. Having upon several occasions visited Tuscarora in the interest of their investments and to note the developments below ground, they have become fully convinced as to the extent and richness of the ore bodies as well as their permanence. Being far-seeing, practical and competent business men, they foresee that the population of this place will be greatly augmented and as a consequence its needs increased in a corresponding ratio.

A NEW WATER SUPPLY.

Noting the inadequacy of the water supply even for the present wants of the community, they cast about them and found a source, largely in excess of the present consumption and sufficient for a much larger population for many years to come, in the mountain range to the eastward, and at an elevation far greater than this, and by location and purchase have secured all rights. For the purpose of conveying the fluid to this place, a joint stock company is about to be formed with a capital stock of \$300,000. To verify the practicability of the scheme three gentlemen in their own and the interest of other California capitalists, one of whom was Mr. H. Schussler, Hydr. Engineer of the Spring Valley Water Company of San Francisco, visited here a few days ago, to examine its feasibility. They fulfilled their mission and took their departure on Wednesday last. That their conclusions were favorable, there is not a doubt. From a conversation with Mr. Schussler, the advisor and director of the Spring Valley Water Company in all their mammoth operations and who has been the engineer in all the water enterprises of any magnitude whatsoever on the Pacific Coast, a Times-Review representative learns that the entire distance which the water will have to be brought in pipes will be about 12 miles, and the supply will yield nearly a million gallons daily of pure mountain water, which can be distributed throughout this town under a 200 foot pressure.

ELECTRIC LIGHT.

In connection with the water project will be an electric light plant for lighting the mines, hoisting works, mills, business houses and dwellings, where desired, as well as the streets, thereby lessening the danger of a conflagration and reducing the rates of insurance.

NEW REDUCTION WORKS.

To remedy the lack of facilities for reducing the large bodies of ore in their mines, which will be equipped with the largest and latest improvements in the way of roasting appliances for desulfurizing their ores and reducing the cost of reduction to the minimum. When completed it is thought the mill will reduce the ores at a cost not exceeding \$12 per ton. The site selected for the mill is upon the eastern slope of the Commonwealth property above the Diana hoisting works in Independence gulch, and ground will be broken for the buildings in a few days.

The concentrating works of the North Belle Isle and Queen now in course of construction, will not only add to the wealth and prosperity of the mines and the camp by rendering available the immense number of tons of low grade ore now lying useless on the dumps and in the slopes of all the mines which have been worked for any length of time, and which under the ordinary process would not pay for extracting and working.

OTHER IMPROVEMENTS.

The impetus given to business by the improvements referred to above and the influx of population, has caused a revival of building interests, and a large number of small dwellings are in course of erection, and several large residences are in contemplation. A gentleman who keeps an eye on the main chance, also has in contemplation the erection of a hotel, at a cost of not less than \$15,000, and is now looking around quietly for a suitable location. This is one of the wants of the town and one which will pay a large interest on the capital invested, and fill a void which has never been supplied since the foundation of the place, and the lucky man who first embarks in the above venture will find himself on the sure road to fortune. Verily, Tuscarora has come to stay, and will be second to no mining camp on the Pacific Coast.

DEATH OF MRS. JESSIE H. HASKELL.

The many friends of D. H. Haskell, townsite agent for the Southern Pacific Railroad, who formerly resided in Reno, will regret to learn of the death of his venerable mother, who died in the East on the 6th of May. The Farmington, Me., Chronicle, announces her death with the following obituary remarks:

Mrs. Jessie H. Haskell, widow of Captain Job Haskell, died at Hallowell, Sunday, 6th inst., at the age of 94 years. She was the second of fourteen children of Captain Peter Haines and Hannah Fuller Haines, of Livermore. Her grandfather, John Haines, came from New Hampshire to Hallowell, settling near the granite ledge, of which he was an early proprietor. He was lineally descended from Deacon Samuel Haines, who left London for Portsmouth, N. H., in 1635, by the ship Angel Gabriel, which was wrecked off Pemquid. Mrs. Haskell was a lady of many endearing traits, among which thoughtful generosity to the needy was conspicuous. Of the large family to which she belonged, no one of all was more tenderly loved and cherished than she by a large and widely scattered kindred, to whom she did good and not evil all the days of her life. The lamp of her beautiful life is not extinguished in the grave, but is a bright signal to those who must follow her. She leaves four children, Dudley Haskell of San Francisco, Mrs. Mary Russell of Hallowell, Miss Jessie Haskell of Hallowell, and Mrs. J. O. Keyes, of Wilton. Her brother Joseph and her sister, Mrs. Moses Haskell, of East Livermore, survive. The funeral and burial took place at East Livermore, on Wednesday, May 9th.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word malaria was comparatively unknown,—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are intended to cover what our grandfathers called biliousness, and all are caused by troubles that arise from a diseased condition of the liver which, in performing its functions, finding it cannot dispose of the bile through the ordinary channels is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

PLATFORM AND SOLUTIONS.

The Republicans of the State of Nevada in convention assembled again express their loyalty to the principles of the Republican party, which have made the country so great and prosperous during the last quarter of a century.
Resolved, That the question of a sufficient supply of a circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.
Resolved, That a diminishing quantity of money reduces the price of labor and property, increases the obligation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.
Resolved, That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National banks, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to National banks without interest, is subversive of the rights of the people, oppressive, unjust, and should be repudiated.
Resolved, That a financial policy whereby both gold and silver shall form the basis of circulation, whether the money used by the people be coin, or in certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.
Resolved, That the attempt to substitute National bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people; that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonetized silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for Government and law. We demand that this ring or trust be destroyed and equal rights restored to all people.
Resolved, That we charge that President Cleveland is the willing tool or agent of a powerful money ring which fattens the subsidies of the Government, makes war on silver, and issues its paper currency at the expense of the Government, borrows the revenues raised by taxation, and uses them without the payment of interest, contracts the currency to enhance the value of bonds, and enriches the users while it depresses the price of labor and property.
Resolved, That we favor the nomination of no man for President who is personally interested in National banks or the bonded indebtedness of the United States; but we demand a candidate who is true to justice to all the people of the country; who is poor as well as rich.
Resolved, That the treachery of the President and his advisers by which they prevented a vote in the House of Representatives on the Beck silver amendment to the bond purchasing bill, equals the villainy of the secret and fraudulent demonetization of silver in 1874.
Resolved, That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country, and to that end will protect the wage-earners competition with the cheap labor of other lands.
Resolved, That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or the money trust, of which he, either as agent or head, is most active in defending.
III
Resolved, That we charge President Cleveland with violating every promise he made in favor of civil service reform, with crippling the mail services, with refusing to sign necessary bills for the improvement of rivers and harbors, with using the power of his Administration to prevent appropriations for a navy and coast defenses, with attempting to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the United States, and with joining the foreign bondholders to demonetize silver and destroy the industries of our country, and for the reduction of wages of the Mint employees at Carson for closing the Carson Mint, when it was not only self-sustaining but a source of revenue to the Government, for its contemptuous veto of pension bills for the relief of disabled soldiers and sailors, and for failing to construct the Government building at Carson as required.
IV
We are in favor of the absolute exclusion of Chinese, and the restriction of immigration, by which the present overcharged condition of the labor market is made worse, and also favor legislation by which a revision of our naturalization and land laws may be accomplished.
V
We demand, in behalf of our various industries, the retention of the duties on lead, borax, tallow, hides and leather, and to restore the tariff of 1867 on wool.
VI
Resolved, That we recognize the right of labor to organize for its lawful protection.
VII
Resolved, That we favor the submission by the Legislature to the people of an amendment to the Constitution giving the Legislature the power to regulate the liquor traffic.
VIII
We favor liberal appropriations by Congress for hydrographical and topographical surveys in this State to the end that the water power may be preserved for the purpose of irrigation.
IX
We endorse the wise and conservative administration of Governor C. O. Stevenson, and we heartily commend the able efforts of Senators Stewart and Jones and Representative Woodburn in behalf of the interests of the people of this State.
X
We favor the granting to Nevada of all Government land within the State for the purpose of providing means for irrigation and other improvements.
XI
We favor the reduction of the Treasury surplus by the payment of pensions to Union soldiers, their widows and orphans, the improvement of rivers and harbors, the building of defenses for our seacoasts, the erection of public buildings, the creation of a navy, the purchase of bonds and the repeal of the internal revenue laws taxing tobacco.
XII
It is the duty of the State to maintain free non-sectarian schools in the rural and sparsely settled districts as well as in towns and thickly settled sections, and to establish a division of the school money should be made as will furnish the means of education to all children in the State.
XIII
We are in favor of reopening the Carson Mint for coinage, and raising the wages of its employees to the standard paid by the last Republican Administration.
XIV
We demand the restoration of the mail service in this State to the efficiency maintained by the last Republican Administration, and favor the payment of fair wages to all postal employees.

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.
Facilities for irrigating surpass any in the State, and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.
The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.
